Cam Core				Please specify year and model when ordering. Price (Each).			CC-H43 \$168.00
Cam Gear, Adjustable				Use with all WEB CAM profiles for precise engine tuning.			CG-H16 \$55.00
Chain Tensioner, Manual				CNC machined from billet alloy to exact tolerances for perfect fit. This tensioner can not back out allowing the cam chain to jump the sprockets as the auto adjusters have been known to do. In the CRF models fits (04-14). Price (Each).			CT-H08 \$65.00
Chain Tensioner, Manual PRO Series				The PRO Series is designed for the racer who frequently adjust his engine. The easy-access socket head adjuster screw is perfect for tight spaces. The interior o-ring design ensures that repeated adjustments will not eventually flatten the o-ring against the jam nut. The PRO Series design features an internal o-ring and custom-machined adjuster bolt. The bolt is broached with a 4 mm hex. Does not fit CRF 450 R (02-03) models, or the TRX 450 ER 06, and the 10 11 models as well. Price (Each)			CT-H03 \$95.00
